- **Community Self-Help Scheme – to consider an application**

The Chair suggests that the PC puts some thought into an application. What work could be carried out around the village, eg vegetation cut back around signs, over hanging branches and verges cut back. Volunteers will be needed or could pay contractors to carry out the work through the Self-Help scheme. Bring ideas to the next PC meeting.

This may increase the renewal quote up from £545.68. The Chair asked that the PC approves a new premium payment once the Clerk is in receipt of it. Agreed by all.

Action the Clerk

- To consider a donation to Wild Explorers - Marlesford Churchyard, £50.00

The Chair who has already declared an interest so unable to vote on the subject outlined the Project's aim, which is to deliver a series of nature fun mornings, 3-4 times a year, for up to 20 children from across the rural parishes. Initially in the Churchyard at Marlesford. Sessions will provide structured outdoor activities, run by volunteers and will be free to ensure accessibility and inclusion. 7. REPORTS FROM PARISH REPRESENTATIVES

a. Energy Projects – Chair Richard Cooper

Sizewell C:

A12 Mitigation: works now scheduled to start 26th May, running through to some time in September (yet to be confirmed). The phasing of the programme remains as described in the last PC meeting and at the SZC briefing on 14th April. 30mph queries.

Southern Park and Ride: SZC intends opening the Southern Park and Ride from Monday 23/02/26. This will be for c80 parking spaces initially and will then be increased in stages through to full capacity later this year.

Scottish Power Renewables – Friston: No change since last meeting.

Sea Link: Examination ended on 5th May and the Examining Authority are due to report within 3 months. We have requested various mitigations should the project get approval.

LionLink: the Statutory Consultation phase has now ended and National Grid's current timeline indicates:

DCO submission: 2026. Examination: 2027. Government decision: 2028. Construction: 2028–2032.

Operations start: 2032 (if approved)

b. SALC: Nothing to report

c. Planning – Chair Richard Cooper

DC/26/0048/AGO2 The Willows, Buttons Rd, Marlesford – Agricultural storage building. The PC has no objection to the planning application.

d. Footpaths & Access – Cllr Russell

Nothing to report.

e. Highways – Chair Richard Cooper and Cllr Barker

Road Signage: The fingerpost sign at the New Road/Buttons Road junction has now been replaced, making directional signage from Parham Airfield to the A12 more obvious. With signage on the A12 cleared, there should be no reason for HGVs to use Bell Lane to access Parham Airfield. The Chair has spoken to Alys Kindred (owners of Parham Airfield) who has agreed to remind businesses on the airfield that the designated route is via Buttons Road to the A12.

Community Self-Help Scheme: Designed to allow towns and parishes to do minor maintenance work that SCC can't get to eg hedge trimming around signage. SCC will:

Organise training for volunteers so they know how to work safely. Provide public liability insurance to cover volunteers while they're working. Give volunteers high-visibility safety clothing. Pay back the initial cost of approved tools and equipment bought by town or parish councils. Support town and parish councils as required to help them participate in the scheme. Chair suggests that this is something that MPC and Marlesford Community Council should investigate. This remains an objective, but has been on hold pending the new Reform administration and agreement with Marlesford Community Council.

HGVs Using Bell Lane and New Road: The Chair has had various discussions with the contractors at the Kind Water site on Parham Airfield (formerly Hatchers). They have agreed that the designated route for their suppliers will be via Buttons Road, not through the village.

h. Framlingham and Wickham Market Community Partnership – Cllr Sophie Franklin

Cllr Franklin has attended two Partnership meetings since the last Parish Council meeting.

An introduction to East Suffolk's Marmot Place initiative. The following are the guiding principles of the Marmot Place initiative and they inform the work of the various Partnerships in East Suffolk;

Give every child the best start in life. Enable all children, young people and adults to maximise their capabilities and have control over their lives. Create fair employment and good work for all. Ensure a healthy standard of living for all. Create and develop healthy and sustainable places and communities. Strengthen the role and impact of ill health prevention. Tackle racism, discrimination and their outcomes. Pursue environmental sustainability and health equity together.

At the Partnership meeting in Framlingham on 30th April it was confirmed that:

The priorities for the East Suffolk Council community partnership covering Framlingham, Wickham Market, Kelsale, Yoxford and surrounding villages are currently;

Transport, Increase awareness of transport services already available. Identify and fill transport gaps, especially for rural and isolated communities and access to health appointments. Mental health and wellbeing through activity.

Environment and biodiversity;

Encourage local people to take part in environmental and biodiversity projects.

This includes initiatives such as the “Wild About” programme, where communities run local biodiversity events and projects.

Cllr Franklin has an e-version of the Coastal Accessible Transport Service (CATS) flyer which sets out the “on-demand services which are available – we await further details of how it can be used by Marlesford residents.
